

Custom Rubber Parts

Features:

- Cost-effective and high quality
- Variety of materials
- Structure from simple to complex

Specification:

Maximum Size	1500*1500*1000mm
Color	White, Black, Transparent, or according to Pantone No.
Tolerance	±0.05mm
Surface Finishing	Glossy, Semi-gloss, Matte, Textured finish, As-machined
Additives	UV absorbers, Flame retardants, Plasticizers, Colorants, Carbon fibers, Glass fibers
Logo	Debossed, Embossed, Printing
Drawing Format	2D Drawing: PDF/JPG/PNG 3D Drawing: STEP/STP/IGS/DXF/DWG
Product Volume	50,000,000 PCS/Month

Types of Custom Rubber Parts:

Rubber parts

Zhongde has produce a board range of custom rubber parts: rubber grommet, gasket, plugs, etc. Including various material such as NR, EPDM, Silicone, FKM, NBR and many other rubber materials.

Rubber bonding metal parts

Rubber to metal bonding offers manufacturers a way to create more complex parts, both small and large, for applications in a wide variety of industries.

Rubber with fabric parts

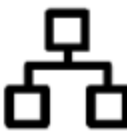

Reinforced fabric rubber can increase the strength of the products. We can make two-layer, three-layer or multi-layer fabric parts, and they can be evenly distributed in rubber products.

Rubber bonding plastic parts

We have mature technology and can produce various rubber-coated products with various plastic materials. From small to large size, simple to complex structure, we can all realize.

Custom Process:

			
1	2	3	4
2D & 3D Drawing	Get a Quote	Drawing Analysis	Process
JGP, STP PDF, STEP DWG, IGS DXF, IGES	Manual quotation within 24 hours	Our engineering experts will analysis your drawing and choose suitable process for production	Injection Molding, Compression Molding, Casting Molding, CNC Machining, Metal Stamping, 3D Printing
			
5	6	7	8
Build a Prototype	Review	Mass Production	Delivery
Quick prototype exactly same as drawings or samples	Review & approve samples for mass production	Automatic production line accelerates production and guarantees quality	We can provide more options for additional assembly and logistics, and ensure a fast delivery within 5 working days

Zhongde has many years of experience in the rubber industry and customized a wide range of products including pure rubber parts, rubber plus metal parts, rubber plus plastic parts, and rubber plus cloth parts. For small batch orders, we mostly use rubber molding to produce, large batch orders use rubber injection, and rubber extrusion technology for sealing strip products. At the same time, we introduced trimming machines to reduce labor and time costs.

Custom Plastic & Rubber & Metal Parts

One-Stop Service from Rapid Prototype to Mass Production and Parts Assembly

Contact Us:

Zhongde is committed to providing customers with high-quality and low-cost customized products. Up to now, we have customized 1 million parts and molds for customers from more than 50 countries around the world. We have introduced more than 500 sets machines to produce plastic components and parts, so that we can offer on-demand production according to customers' requirements. If you have customization requirements, please provide the corresponding 2D or 3D design drawings, and we will provide a quick quotation within 24 hours.

Headquarter

Zhongde (Beijing) Machinery Equipment Co., Ltd.

Add: C-708, No.9 Shangdi 3rd St., Haidian District, Beijing, China 100085
